

Thank you for the opportunity to raise my concerns. This is in no way directed at one person or a group. This is something that has been going on for years and as a prior ice conveyor for a major user group I have never agree with this process then. Now with a new society, I see the same issues and struggles for new user groups trying to expand their programs.

I am here not only representing the Challenge in the Rockies but any possible user group that would be interested in booking unused ice times.

In addition, I speak as a taxpayer who questions the operating strategy of managing ice times where a user group currently has complete control.

The possible lost revenue from allowing this to happen, sees a facility staffed by the taxpayer sit empty too often. Certainly Hinton Minor Hockey and Hinton Ringette Associations are major user groups who need consideration for their operation.

However, at one point in time when Hinton Minor Hockey had far larger participation numbers this process may have worked. As is stands today they have approximately 170 registered.

As it exists today, upwards of 8 hours of unused ice is being released each day on the weekend. The cost of operating an unused facility is not good business.

As this problem has been ongoing for several years, it has evolved to a point where Rec Centre Admin always seems to take a defensive stand when questioned instead of working toward a solution in a timely manner.

This costs the taxpayer thousands monthly in lost revenue, and most importantly denies user groups timely access to available ice times. There is inadequate time to plan and schedule an event with the time given from last minute ice being Wednesday of that week.

Among the individuals and other user groups wanting to book ice time for Public Skating, Birthday Parties and other recreational events, the challenge in the Rockies would appreciate being able to utilize ice time for games, practices and specialty training camps.

My suggestion is, Rec Center Admin be directed by town council to reserve a 2-1/2 hours' game block in both the BTA and SHA arenas each Saturday and Sunday.

2)

This would allow for any cancelled, added, or unexpected games to be slotted in last minute.

This 2-1/2 hour reserved slot would be held until noon on Monday prior to the weekend, and if not booked, would then be released and made available to any user group wishing to utilize it. This ice would automatically be available at 1:00pm each Monday for any potential groups to reserve.

How much out of town revenue has been lost to our community from out of town teams wanting to book games along with lost revenue to our hospitality industry.

The Offered ice to the Challenge – The offered times did not work for our group, however being offered ice then having to approach instructors which come in from out of town pending availability works backwards. Again having access to active net would only be beneficial to all user group trying to book additional ice.

“Active Net” should be available to anyone to view at any time. Instead of staff fielding calls and/or emails inquiring about available ice time, people could check on line and then call to make reservations.

In the past as an Ice Convenor I became frustrated with trying to work out bugs with ice booking and ended up resorting to Social Media to vent my frustrations. A few in this room approached me and raised concerns about my manner and method. It seems that my rants on social media “hit a nerve” (or three). It was suggested that I approach Town Council directly with my questions, concerns and suggestions. So, here I am in front of our communities elected members asking for these problems to be addressed and resolved.

What is a Recreation Center? It’s a building that is open where meetings are held, sports are played and there are activities for young and old people.

Council, admin we have some amazing facilities if only we could utilize them...

5)

Below is the unused ice which was sourced from the weekly last minute emails sent (some weeks non sent) and from the town of Hinton website which shows some weekends with error messages.

** Extra Drop in programs added also as last minute

9)

- Prior to any submitted season game schedules and tournaments at the start of the year, public skating programs should be offered first with a constant time on both Saturday and Sunday.
- Season schedules, tournaments are then submitted to the town which work around these hours from all user groups
- Exceptions – provincials, playoffs, special events
- Submitted week day practice ice that was submitted then released back will be offered to the next expanding user group within a timely manner (2 weeks)
- Rec Center staff become more familiar with league schedulers and procedure.
- After season games are entered for user groups a 2.5 hour slot will be held in the BT for minor hockey and a 2 hour slot in the SHA for ringette. This slot is held for last minute rescheduled regular games which is then released back to the town by Monday noon of that week and then offered up for last minute ice or additional public programs.
- Opening up additional ice will not only allow constant public programs but allow other user groups to grow along with the taxpayer for personal rentals. It also allows out of town teams the opportunity to host games that in return benefits the hospitality industry.
- Active net – this should be available anyone to view.
- Declined ice to Challenge in the Rockies – being offered times that do not work with our instructors is the reason, however not having access to many of these days where it could have worked is lost revenue
- The 3 on 3 tournament at Christmas was in fact denied by the town. After minor hockey released, which tried up 4 days. Once we found out it was cancelled I personally called the town asking if they wished to partner in making this happen. Was turned down by the town due to last minute promotion
- The Challenge in the Rockies offers a Free Monday night skate which rotates between two age levels every week. One group with the under 11 that is full with 25 registered and another 12 and over with 15 registered. We are in need of another weekday constant slot. Besides this we have been trying to book goalie camps, power skating camps with no success due to these current conditions. Our sponsors have also been asking why as well.
